

## 2 Hours in Darkness Challenge

Tonight, we are challenging you and your family to spend two hours without electricity. This will give you just a little idea of what life is like in a village where families have no access to electricity and so they have to rely on toxic and expensive kerosene.

When you have completed this assignment, please write a paragraph and draw a picture describing what you did when it was dark and how you would feel if you did this every day.

Parents, for more information about this nonprofit organization, please visit [www.onemillionlights.org](http://www.onemillionlights.org)
